

TCRCC Meeting Minutes – September 28, 2024

Meeting start 10:05 End 10:45

Items discussed

1 Runway proposal is taken down from the roll.

2 Final wording for the rule change vote about powering up electric under the canopy;

No aircraft engine(s) may be started on spectator side of chain link fence. Electric propulsion motor(s) may only be energized on spectator side of fence when: All propellers on airplanes/multi-rotors or main/tail blades on helicopters are removed. Otherwise, there must be a physical break in the wire(s). A switch does NOT meet this rule.

Rule wording was accepted / preliminary voting was accepted.

Final voting and integration will be done during the October 2024 meeting.

3 Field Camera instructions are e-mailed to the club members.

4 Treasure report for the month of September has been accepted.

5 The Board members had a meeting about the budget for 2024. The budget has room and is accepted to purchase a weed eater and a leaf blower.

6 Members that want to serve on the board need to provide their names for nomination at the October meeting.

The current administration has acknowledged that we will serve another year with the club members approval at the December vote.

7 Harvey has submitted a proposal to install fans under the canopy. Installation Feasibility and costs will be discussed in the very near future.

8 Propeller safety reminder. Stay away from running props. Even new props can be flawed.

9 Models and planes wanted for the 19th of October event at Texas City. Vince is the coordinator.

Composed and distributed by Constantin De Bock
